

**FOR IMMEDIATE RELEASE**

## **Prodigy Payment Systems Announces Release of Clear Charge POS Software**

**Addison, TX. – June, 28 2009** – Addison, TX based Prodigy Payment Systems, [www.ProdigyPay.com](http://www.ProdigyPay.com), a leading merchant services provider, recently announced the release of its flagship point of sale software, Clear Charge.

When Clear Charge is installed on a computer it enables it to become a fully-functioning payment processing terminal. Clear Charge can process credit, debit, checks, EBT and gift and loyalty cards. Clear Charge utilizes host data capture so that it does not store cardholder data on the machine, making it PCI and PED compliant. Also, the latest version of Clear Charge is Check 21 capable with a dual-sided Check Imager.

An important feature of Clear Charge is multi-merchant capability. This enhancement makes it possible for Clear Charge to process up to 9 different merchant accounts on one system, convenient for multi-merchant locations.

Prodigy Payment Systems merchants who choose Clear Charge receive automatic updates on future upgrades included in their standard pricing. Plans for future enhancements include internal reporting features providing daily, weekly and monthly reports for each separate payment category. Prodigy is dedicated to ensuring merchants utilize the most current technology now and in the future.

"Clear Charge makes it possible for us to offer an all-in-one software payment solution that is intuitive to the merchant's needs," said John Crouch, Chief Information Officer. "Our goal is to provide a wide range of cost effective solutions for our merchants in order to fit their specific needs and Clear Charge is a great addition to our products."
